Organizations for
On-Site Training of
their Employees***

Our Programs include orientations, cross training and continuing education.

Purpose

This program will assist the staff RN in examining personal habits of time management, prioritization of nursing care, communication skills, delegation and stress management and conflict management and present strategies for managing in an efficient and professional manner.

Behavioral Objectives:

At the completion of this course the participant will be able to:

1. Differentiate between their productive and non-productive time management strategies.
2. Identify for self-care activities when working shifts.
3. Assess their ability to listen, as part of successful communication.
4. Evaluate their skill as a team member.
5. Utilize the "Decision Grid for Delegation".
6. Explore their role as a delegator.
7. Identify their typical response to conflict situations.
8. Explore new and creative ways to manage stress.
9. Assess areas of professional and personal stress.
10. Develop a personal action plan for improving personal well-being.
